DETAILED ACTION

Allowable Subject Matter

1. Claim 1 and 3-9 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a method for transmitting delay sensitive information and non-delay sensitive information. The prior arts in the record fail to teach or make obvious to a method comprising reviewing the fragmentation requirements after a new requirement was calculated or after transmission is terminated to determine the most restrictive fragmentation requirement and altering the fragmentation based on the determined most restrict fragmentation requirement within a structure of the claim. These features are claimed in the independent claims 1 and 7 and render them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
